

Huey has been so wonderful to work with. If there is ever anything I need he not only makes sure I get it, but he has it in a flash, and I can hear his smile either in his voice over the phone or through his emails! Our program recently re-opened our ASN program after a 21-year hiatus. We were in need of nursing pins for this program. Huey made sure to walk me through every step of the way, from design to ensuring licensing was up to date for this pin. He made a potentially daunting task super easy. I am so very thankful for him!
