7) I have had the pleasure of working with Huey Feagin over several years. When I became the lead over the pinning of our students, I was lost and really did not know the process or how everything worked with ordering the necessary materials and items. Huey was a Godsend. He coached me through establishing online ordering for the students and was very honest and truthful with me about turnaround times and deadlines, not to mention he would go above and beyond to help me should I have any sort of problem. Huey is personable, polite, extremely knowledgeable about his products, and does not put on any facades. The greatest of all is, he will follow-up with you no matter the issue. His willingness to not only be a vendor contact with our nursing program, but to be a friend with a great conversation, really helps drive home the importance of good people working with you on a day-to-day basis.
